PROFILE

Hello, I'm Hoo Weng Chin, a 24-year-old full stack developer from Kepala Batas. I specialize in C# and problem-solving, with extensive experience in SSMS and RESTful API development. I enjoy challenges, problem-solving, and teamwork. In addition to C#, I'm proficient in a variety of programming languages and adapt well to different project needs. I'm passionate about continuous learning and eager to contribute to the company's success.

WORK EXPERIENCE

- V6 Technology Sdn Bhd Nov 2023 - Apr 2024
Intern Trainee of Design & Engineering
 - Designed and developed stable APIs for mobile teams, ensuring reliable communication and data exchange.
 - Independently developed SAML IDP and SP projects, implementing authentication and authorization.
 - Developed a secure two-factor authentication mechanism using Laravel TOTP, ensuring enhanced security.
 - Conducted comprehensive code reviews to identify areas for improvement, ultimately enhancing the overall code quality and efficiency of the team.
- HUP HENG ENGINEERING AUTO SERVICES Nov 2018 - Sep 2021
Power Engineering Technician
 - Troubleshoots and repairs alternating current electrical systems on generators.
 - Troubleshooting problems with electrical or mechanical equipment to locate the source of the issue.
 - Monitoring gauges and meters to ensure that the generator is operating efficiently.
